Structure and Mechanism in Protein Science: A Guide to Enzyme Catalysis and Protein Folding Alan Fersht

Fersht's *Structure and Mechanism in Protein Science* is a defining exploration of this new era, an expert depiction of the core principles of protein structure, activity, and mechanism as understood and applied today. A thorough recasting of Fersht's previous text, the book takes a more general look at mechanisms in protein science, emphasizing the unity of concepts in folding and catalysis and the importance of the relationships between basic chemistry, kinetics, thermodynamics, and structure.
