C++ For Dummies

Stephen R. Davis

C++ For Dummies Stephen R. Davis

Enter the world of computer programming with this step-by-step guide to the C++ language! C++ is a great introduction to object-oriented programming, and this friendly guide covers everything you need to know and nothing you don't. You'll write your first program by the end of Chapter 1. C++ For Dummies, 6th Edition, helps you understand C++ programming from the ground up. It's full of examples to show you how things work, and it even explains "why", so you understand how the pieces fit together. And the bonus CD includes a special code editor, an update GNU compiler, and all source code from the book to save you time.* Learn programming lingo and what terms like object-oriented, compiler, and executable mean, so you can write a program right away* See how to bundle sections of your code into modules that can be reused in different programs* Work with features of object-oriented programming such as classes, constructors, and destructors* Discover how the concept of inheritance is the key to effective C++ programming* Work with assignment operators, stream I/O, and other more advanced concepts, once you've grasped the basics You'll discover ten ways to avoid adding bugs to your programs, what pointers are and how to use them, how to work with strings, and some advanced features new to C++. C++ For Dummies, 6th Edition gets you up and running with this popular object-oriented language. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

From reader reviews:

Sheri Furlong:

What do you regarding book? It is not important with you? Or just adding material when you want something to explain what the one you have problem? How about your free time? Or are you busy particular person? If you don't have spare time to perform others business, it is make one feel bored faster. And you have free time? What did you do? Everybody has many questions above. They need to answer that question mainly because just their can do this. It said that about publication. Book is familiar in each person. Yes, it is appropriate. Because start from on jardín de infancia until university need this kind of C++ For Dummies to read.

Charlene Martinez:

In this 21st millennium, people become competitive in every single way. By being competitive currently, people have do something to make all of them survives, being in the middle of typically the crowded place and notice by surrounding. One thing that oftentimes many people have underestimated the item for a while is reading. Sure, by reading a publication your ability to survive raise then having chance to stand up than other is high. For yourself who want to start reading a new book, we give you that C++ For Dummies book as nice and daily reading guide. Why, because this book is greater than just a book.

Emma Englund:

This book untitled C++ For Dummies to be one of several books this best seller in this year, that's because when you read this e-book you can get a lot of benefit in it. You will easily to buy this kind of book in the book store or you can order it by means of online. The publisher of the book sells the e-book too. It makes you quickly to read this book, since you can read this book in your Smart phone. So there is no reason to you personally to past this reserve from your list.

Grant Rickard:

As a pupil exactly feel bored to reading. If their teacher inquired them to go to the library or make summary for some reserve, they are complained. Just tiny students that has reading's internal or real their passion. They just do what the professor want, like asked to go to the library. They go to at this time there but nothing reading significantly. Any students feel that examining is not important, boring and can't see colorful photos on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore , this C++ For Dummies can make you really feel more interested to read.
