In October 1965, President Lyndon Johnson stated that the spirit of America held tradition as an asylum for the oppressed, and he pledged 'to the people of Cuba that those who seek refuge here will find it'. And they did. Even before the president's speech, thousands of Cubans had been flooding the shores of America and other countries, with the Freedom Tower in Miami becoming refugees' sentinel of liberty. Their experience over the last sixty years is captured in *Cubans: An Epic Journey*, a collection of more than thirty essays by renowned scholars, historians, journalists, and media professionals. Contributors like magazine publisher Sam Verdeja, print and broadcast journalist Guillermo Martinez, newspaper editor Howard Kleinberg, business executive Louise O'Brien, university professor Leonardo Rodriguez, and broadcast commentator Francisco Rodriguez cover myriad topics, from the fight against a totalitarian regime, to myths about the accomplishments of the Cuban Revolution, to the personal stories of Cubans who have made significant contributions to American society. The essays in *Cubans* explore different topics but share a similar endeavor to reveal the complex interrelationships among the Cuban people, their homeland, the exile community, and American government and society. The Cuban experience in America and other countries has proven disappointing and remarkable; disappointing because a homeland was lost and attempts to retrieve it turned into a nightmare, remarkable because refugees settled in their new countries and soon flourished, particularly in the United States, in many aspects of society.
