They called it "...the perfect storm of idiocy." The Gunwalker scandal encompassed the resources of multiple Federal agencies including Eric Holder's Department of Justice, the DEA, CIA, FBI, DHS and the ATF; it was the most profoundly misguided law enforcement effort in our nation's history...but it's only half the story. Before the scandal was finally exposed two Americans lay dead. US Border Patrol Agent Brian Terry killed in a fire-fight with a drug cartel rip-crew and Immigration and Customs Enforcement Agent Jamie Zapata who died in an ambush deep in Mexican cartel territory. The scandal is they both died in gunfights where the criminals left behind firearms supplied originally by agents of the ATF in Operation Fast and Furious. Worse, it appears the plans had been to intentionally traffick firearms to Mexican narco-terrorists and then blame American gun owners and gun stores in order to leverage onerous anti-rights gun control legislation. The meticulously footnoted research in this book details how the ATF and FBI use a computer program called "e-Trace" to collect private information on law-abiding citizens and then with a digital portal called "Armas Cruzadas" provide that information on American citizens to over thirty foreign governments, many of them with long histories of corruption. Here is the story that has not been told about the much larger and more dangerous source of Mexican cartel firearms—an international culture of crime that includes the Muslim Brotherhood, Hezbollah, Hamas, their state sponsors of terror in Iran and Syria as well as Central and South American Islamic radicals and incredibly...our own US State Department. Revealed here for the first time, it is an alliance known to Federal law enforcement since at least the 1970's. It is now largely funded not only by Iran and Syria, but by American Muslims funneling cash for radical Jihad through illegal money-laundering operations back over the same shared Arizona trails used by their drug cartel partners. This exposé includes "Secret" US embassy cables proving Eric Holder lied to the American public about Mexico's "iron river of guns" and the number of firearms found at Mexican crime scenes; confidential emails between ATF agents looking for data to support President Obama's gun control agenda; Federal court documents filed by Sinaloa drug cartel officers revealing a deal with the US Government to trade information on competing cartels in exchange for guns in the Operation Fast and Furious venture. Extensive endnotes detail the complete and stunning investigative reports by House Oversight Committee Chairman Darrell Issa (R-CA) and Sen. Charles Grassley (R-IA) as well as the infamous Muslim Brotherhood's Explanatory Memorandum revealing their strategic and violent plan for the takeover of the United States.
