The famous missing child case of Adam Walsh, a 6-year-old last seen at a Sears in a shopping mall in Hollywood, Florida, in July 1981 was the worst nightmare imaginable. Two weeks later, a child's severed head was found and identified as Adam. No one has ever been arrested for the crime.

For the most part, the case's narration has been told by the victims, Adam's parents Reve and John Walsh. However, there has been another voice, independent investigative journalist and author of five True Crime books about Florida, Arthur Jay Harris, who has continued to write about it for two decades, and has worked on it with ABC News, The Miami Herald, and others. **The deeply-researched story he tells disputes almost everything that everyone in the public has been led to believe.**

IN BOOK ONE, Harris shows that **the taker of Adam was** most likely not the drifter Ottis Toole, as police now say, but rather **the serial killer Jeffrey Dahmer**, who was arrested ten years later with eleven severed heads in his apartment. Harris documented him by a police report living near Hollywood as a transient about when Adam disappeared. That report had him supposedly *finding* a dead body in an alley behind where he worked. The report referred to a meter and storage room steps away where Harris and ABC News found blood droplets rising up a wall next to a lumberman's axe and a sledgehammer. Was this Dahmer's doing?

Further, Dahmer was identified by seven police witnesses who said they saw him at the mall with or near Adam when he was taken. One of those witnesses said he saw him throw Adam into a blue van and get away. Where Dahmer worked there was a blue van, easily and often taken for personal use, without permission. Early on, a blue getaway van was Hollywood's first, best clue.

Also, a police composite drawing of a suspect in an attempted kidnapping of a similar-age child at a Sears in the next county, two weeks *before* Adam's disappearance, closely matches a mug shot of Dahmer taken a year later. The similarity was confirmed by the near-victim, a witness who helped make the drawing, and a police artist Harris consulted. The photo comparison is in the book.

IN BOOK TWO, more shocking, Harris shows that **all the official files are incredibly missing the most customary documents that would prove the identification of the found child who was said to be Adam.** Among the documents missing are the autopsy report, a forensic dental report (considering that the ID was strictly based on a tooth comparison), and Adam's dental chart and dental X-rays. An investigation by the Florida Department of Law Enforcement confirmed his finding.

In fact, the ID was not only shoddy and inadequate but is overwhelmingly likely wrong. In Adam's last photo he was clearly missing both his top front teeth. A police crime scene photo, never before published, shows the found child had a mostly-in buck tooth -- a top left front tooth. Harris consulted a number of pediatric and forensic dental and medical examiner experts who confirmed the obvious: there

wasn't enough time for Adam to have grown it in that far.

All that would have been exposed at a court trial -- but more than 30 years after Adam's disappearance, there has never been one.

Yet another remarkable finding Harris made is that more than 20 years after the incident, the Walshes consented to police forensic testing that presumed a doubt about the found child's real identity.

Did police end the search for Adam too soon? Could Adam still be alive? In fact not so impossible, Harris found...
