Einstein Never Used Flashcards: How Our Children Really Learn--and Why They Need to Play More and Memorize Less Roberta Michnick Golinkoff, Kathy Hirsh-Pasek, Diane Eyer

Now Available in Paperback!

In *Einstein Never Used Flashcards* highly credentialed child psychologists, Kathy Hirsh-Pasek, Ph.D., and Roberta Michnick Golinkoff, Ph.D., with Diane Eyer, Ph.D., offer a compelling indictment of the growing trend toward accelerated learning. It's a message that stressed-out parents are craving to hear: Letting tots learn through play is not only okay--it's better than drilling academics!

Drawing on overwhelming scientific evidence from their own studies and the collective research results of child development experts, and addressing the key areas of development--math, reading, verbal communication, science, self-awareness, and social skills--the authors explain the process of learning from a child's point of view. They then offer parents 40 age-appropriate games for creative play. These simple, fun--yet powerful exercises work as well or better than expensive high-tech gadgets to teach a child what his ever-active, playful mind is craving to learn.
