Adult Learners:

- Do you want to learn to work on the abacus and master mind math effectively? This book will be an excellent help for adults who are learning to use the abacus and to ultimately master mind math.
- The book introduces concepts one at a time, which helps in mastering abacus and increasing speed and accuracy effectively.
- Practicing mind math with this book will aid in your quest for mastery over mind math with effortless ease.

Soroban, the Japanese abacus is a very useful visual tool that helps children ‘see’ numbers as beads while calculating. Soroban perfectly fits with the base 10 number system used at present and provides a systematic method (formulas) to follow while calculating both on the tool and in the mind. Mastering of this tool will enhance your child’s basic math comprehension, speed and accuracy. In general, when children practice mind math, they get a very important sense of achievement that helps raise their confidence as students. You can also see an improvement in their concentration, tenacity, memory power and listening skills.
