Property for the Next Generation: Preparing Your Family for a Wealthy Future Vicki Wusche

This is the third book published by Vicki Wusche, an experienced property investor and business owner. During her journey from redundancy in 2006 to becoming financially secure in 2010 through her property investments, Vicki recognised that everything she had learned previously about money was wrong. Her home was not an asset, the government would not be able to fund the UK's ageing population through a comfortable retirement and private pensions reliant on the stock market were not going to help. In light of this, Property for the Next Generation sets out to ask the reader highly challenging questions about their financial future. The book will help readers recognise the new financial landscape we are all facing and how it will impact on our children's lives. It lays out the seven most important financial lessons our children need to know and above all helps readers to plan for the life they want and the future they deserve. In the final section Vicki uses the story of her own daughter's journey into property investment and shows parents how to teach children to buy their own property investment portfolio. This book is a vital wake up call for parents who are prepared to challenge the current economic situation and who are behind making a positive change for the future. By considering future generations in the way we invest money today, we can use this dynamic time of entrepreneurial revolution to make these vital changes happen.
