A survey of the best trout-fishing rivers and streams in the country as chosen by members of Trout Unlimited, with listings for species, hatches, flies and lures, and when to fish. Each profile contains information and maps that boost angler success. Profiles present, as well, the environmental challenges facing each stream and the role that TU and others play in protecting the fishery. Extensive interviews with anglers for whom each stream is “home water,” add depth to personal observations formed when award-winning writer and angler, John Ross, fished many of these streams himself.
