Optical System Design, Second Edition Robert Fischer

Learn advanced optical design techniques from the field's most respected guide

Honed for more than 20 years in an SPIE professional course taught by renowned optical systems designer Robert E. Fischer, *Optical System Design*, Second Edition brings you the latest cutting-edge design techniques and more than 400 detailed diagrams that clearly illustrate every major procedure in optical design.

This thoroughly updated resource helps you work better and faster with computer-aided optical design techniques, diffractive optics, and the latest applications, including digital imaging, telecommunications, and machine vision. No need for complex, unnecessary mathematical derivations—instead, you get hundreds of examples that break the techniques down into understandable steps. For twenty-first century optical design without the mystery, the authoritative *Optical Systems Design*, Second Edition features:

- Computer-aided design use explained through sample problems
- Case studies of third-millennium applications in digital imaging, sensors, lasers, machine vision, and more
- New chapters on optomechanical design, systems analysis, and stray-light suppression
- New chapter on polarization including lots of really useful information
- New and expanded chapter on diffractive optics
- Techniques for getting rid of geometrical aberrations
- Testing, tolerancing, and manufacturing guidance
- Intelligent use of aspheric surfaces in optical design
- Pointers on using off-the-shelf optics
- Basic optical principles and solutions for common and advanced design problems

From reader reviews:

Lenore Cortez:

Why don't make it to become your habit? Right now, try to prepare your time to do the important action, like looking for your favorite e-book and reading a guide. Beside you can solve your problem; you can add your knowledge by the book entitled Optical System Design, Second Edition. Try to face the book Optical System Design, Second Edition as your buddy. It means that it can being your friend when you experience alone and beside those of course make you smarter than before. Yeah, it is very fortunated for yourself. The book makes you far more confidence because you can know every little thing by the book. So , we should make new experience in addition to knowledge with this book.

Virginia Higgins:

As people who live in the modest era should be update about what going on or data even knowledge to make these individuals keep up with the era that is always change and make progress. Some of you maybe will certainly update themselves by studying books. It is a good choice for yourself but the problems coming to you actually is you don't know what one you should start with. This Optical System Design, Second Edition is our recommendation to make you keep up with the world. Why, because book serves what you want and need in this era.

Anne Braden:

Do you one of people who can't read satisfying if the sentence chained inside the straightway, hold on guys that aren't like that. This Optical System Design, Second Edition book is readable by you who hate the perfect word style. You will find the facts here are arrange for enjoyable studying experience without leaving also decrease the knowledge that want to deliver to you. The writer involving Optical System Design, Second Edition content conveys objective easily to understand by a lot of people. The printed and e-book are not different in the content material but it just different such as it. So , do you nonetheless thinking Optical System Design, Second Edition is not loveable to be your top checklist reading book?

Betty Patton:

Reading can called mind hangout, why? Because if you are reading a book specifically book entitled Optical System Design, Second Edition your brain will drift away trough every dimension, wandering in every aspect that maybe unidentified for but surely will end up your mind friends. Imaging each word written in a guide then become one type conclusion and explanation that maybe you never get previous to. The Optical System Design, Second Edition giving you a different experience more than blown away your mind but also giving you useful info for your better life in this era. So now let us explain to you the relaxing pattern at this point is your body and mind is going to be pleased when you are finished reading through it, like winning a. Do you want to try this extraordinary shelling out spare time activity?
