**Accounting Information Systems** Vernon Richardson, Chengyee Chang, Rod Smith

**Accounting Information Systems 1e** covers the four roles for accountants with respect to information technology:

1. **Users** of technology and information systems,
2. **Managers of users** of technology,
3. **Designers** of information systems, and
4. **Evaluators** of information systems. Accountants must understand the organisation and how organisational processes generate information important to management. Richardson's focus is on the accountant's role as business analyst in solving business problems by database modeling, database design, and business process modeling. Unlike other texts that provide a broad survey of AIS related topics, this text concentrates on developing practical, real-world business analysis skills.
