This book is a how-to manual for managing the business aspects of a private practice in psychiatric mental health nursing. The author shares the practical information earned from long experience in private practice, including the legal requirements for practice, how to start up a practice and market your services, how to explain what a nurse psychotherapist is to those who don't know, methods for recordkeeping and billing, fee schedules, and negotiating third-party reimbursement. It includes over twenty useful sample forms and letters (e.g. a sample letter for denial of insurance claims), and a listing of insurance companies and managed care companies, with addresses. The book concludes with a comprehensive state-by-state summary of educational and practice requirements for advanced practice nurses.
