## Muslim Societies and the Challenge of Secularization: An Interdisciplinary Approach (Muslims in Global Societies Series)

Scholars from various disciplines worked together to present the first interdisciplinary book to address the issue of Islam, secularism and globalization. The book has a clear structure which represents its interdisciplinary approach: the first section addresses the philosophical and historical discussion about Islam and secularism; the second section discusses the topic from an ethnographical and social anthropological viewpoint; and the final section addresses Islam, secularism and globalization from a political viewpoint. This unique collection not only offers innovative research and new material, it also provides empirical examples and theoretical debates, and could therefore also be used as a textbook for courses on Islam, globalization, anthropology, politics, sociology and law.
