The Poetic Edda

Henry Adams Bellows

The Poetic Edda Henry Adams Bellows

"The Poetic Edda" comprises a treasure trove of mythic and spiritual verse holding an important place in Nordic culture, literature, and heritage. Its tales of strife and death form a repository, in poetic form, of Norse mythology and heroic lore, embodying both the ethical views and the cultural life of the North during the late heathen and early Christian times. Collected by an unidentified Icelander, probably during the twelfth or thirteenth century, "The Poetic Edda" was rediscovered in Iceland in the seventeenth century by Danish scholars. Even then its value as poetry, as a source of historical information, and as a collection of entertaining stories was recognized. -- (Text refers to a previous edition)
