Master Handbook of Acoustics

F. Alton Everest

Master Handbook of Acoustics F. Alton Everest

The goal of this book is to apply the principles of acoustics to the audio arts. This involves serving as an interpreter of major trends and the literature for students and practitioners in the audio field. Along with covering the more theoretical aspects of acoustics, the book applies the theory to the design of specialized audio spaces such as the home listening room, the control room, and the multi-track-recording studio.
