This book is not for beginners. It is for anyone **learning Spanish** or who wants to **improve their Spanish language skills**. The idea is simple: lots of **bilingual texts (Spanish-English)** to practice reading comprehension, plus exercises to translate single sentences from English into Spanish.

Everything is in **Spanish and English**, so exercises are useful to readers of different levels of ability in **Spanish**. However, the book is aimed primarily at high school and college students of **Spanish**, or anyone else who has already acquired a working knowledge of the language. There are five units in the book, each one offering a mixture of single sentences and longer texts. Every example of **Spanish** is followed (usually on the next page) by a translation into English. This allows readers to 'click' through as much material as they want, even if it's just a sentence of two at a time.

This book is not a textbook and contains no grammar exercises! It is an additional resource to help learners of Spanish improve their language skills. However, the texts themselves contain a wide variety of grammatical structures, tenses, and set expressions in Spanish. The vocabulary is also rich and varied. But don't worry if you don't understand everything--a full translation into English is just one click away!

A note on the translations: we have tried to provide good, straightforward translations of all material in this book. But remember that there are potentially many ways of translating any sentence.

Keywords: learn Spanish, improve Spanish, advanced Spanish skills, Spanish exam practice, college Spanish, bilingual language learning texts, Spanish-English translation
